GENERAL CONDITIONS FOR WGA GOLDPANNING CHAMPIONSHIPS

1. World Goldpanning Championships shall normally take place in the second half of August. If the Organiser wishes to hold the championships at any other time this must be made clear when making the bid to host them.
2. The soil in or near the competition area must contain alluvial gold. The general public shall have access to this area to pan for gold.
3. The location or adjoining areas must be known for their gold history and the related monuments and places of interest shall be open for public access.
4. Various standards and forms of accommodation from hotels to camping grounds shall be available near or in the competition area.
5. Various forms of catering services, such as restaurants, cafes etc, are required in or near the competition area.
6. The organiser shall arrange local transportation, parking and other aspects of traffic.
7. The organiser shall provide sufficient financial securities to demonstrate their ability to carry through the championships.
8. The organiser is responsible for arranging an interesting programme of gold-related events for the whole week. Visitors in particular must be offered a chance to get acquainted with local gold history and current activities.
9. The official languages of the championships are the local language and English. It is also recommended that programmes, posters, announcements etc are in as many languages as possible.
10. Applications to host the World Goldpanning Championships shall be delivered a minimum of four (4) years in advance to the WGA President for consideration at the next WGA AGM. Applications to host the European Goldpanning Championships shall be delivered a minimum of two (2) years in advance to the WGA President for consideration at the next WGA AGM. All applications must be accompanied by the correct bidding fee at the time of submission. The elected organisation will present the plans and a preliminary programme at the WGA AGM one year before the competition.

RULES FOR WGA GOLDPANNING CHAMPIONSHIPS

1. COMPETITION ADMINISTRATION

A. ORGANISING BODY

The Organising Body for any National, European, or World Goldpanning Championship held under the rules of the World Goldpanning Association (WGA) shall be:

1. A National Association that is a current member of the WGA.
2. An Organisation that is recognised by the WGA for the purpose of organising a championship.

B. ANNOUNCEMENT OF THE COMPETITION

1. The formal announcement of any competition is the responsibility of the organiser.
2. The selection of future World and European Championships will be at the WGA AGM by the vote of members present. It is then the responsibility of the organisers of the successful nation to formally announce the event.
3. Notification of any National Championship (held under these rules) should be sent to the WGA Communications Director at least 12 months before the event. It should include, date, place, time and registration instructions.

C. CATEGORIES OF PARTICIPANTS

Each World or European championship must include the following official categories and should include fun events. The Organisers must provide gold, silver and bronze medals for first, second and third place in the official categories.

- Proficient Men
- Proficient Women
- Juniors (Under 16 years at the start of the Junior competition, both sexes).
- Veterans (60 years and over at the start of the Veterans competition, both sexes)
- The National Team.
- Fun Events (Organisers are encouraged to also arrange non-official fun goldpanning events that are open to all people. These non-official events will have no recognition in terms of official medals and titles, e.g. 'world champion'.)

2. THE COMPETITION SITE

A. THE ARENA

1. The panning arena shall be a man-made area, at ground level with viewing seats for the competitors and spectators. Organisers must not use rivers or lakes to site the panning pools.
2. The boundary of the actual competition area must be clearly marked and only competitors and officials are permitted to enter this area during the contest.
3. The arena for the World Championships must contain 30 individual panning pools. European Championships should have 30 individual panning pools. National Championships must have a minimum of 10 panning pools.
4. The practice area for the World and European Championships must contain a minimum of 4 practice pools and for National Championships a minimum of 1 practice pool. The pools shall be the same size as competition pools and be provided with competition gravel. The organisers must ensure that these pools are for competitors only and that they are maintained and open from early morning to late evening.

B. PANNING POOLS

1. Each individual panning pool must conform to the following measurements:
 - a) Breadth (width) between 90 and 120 cm.
 - b) Length between 140 and 170 cm.
 - c) Depth of water in pool between 20 and 30 cm.
2. Each pool must have an area for the competitors to put down their pans and buckets (with stands for the Bateau pans) and a secure place for the tube.
3. Each pool must have a permanent number board displaying its number.
4. The movement of water in any pool must not disturb competitors in other pools.

C. VIDEO

1. Each heat in every round in all the official competitions must be filmed. The picture must clearly show all the competition pools.. These recordings must be available to the Jury should a protest be lodged.

D. THE TIMING CLOCK

1. A timing clock must be in a location that can be seen by the competitors, spectators and the video. The official time is kept by the Board of Judges' Timekeeper.

E. COMPETITION GOLD (SAMPLE)

1. A sample of the size and type of the gold being used must be clearly displayed for all competitors to see throughout the competition.

F. NOTICE BOARDS

1. Boards for displaying heats and results must be in a prominent position close to the arena. A separate display board next to the heats/results board should be provided for general information.
2. The heats time-table for each day must include all start times and be published at a minimum of two hours before the first heat. Once published a heat cannot be run earlier.
3. The results must be published within 1 hour of that heat ending.

3. EQUIPMENT FOR THE COMPETITION

A. THE PAN

1. Each competitor is allowed to use their own pan, but this must conform to the following;
 - a) Maximum diameter of the pan 50 cm.
 - b) Maximum height of the pan 15 cm.
 - c) Internal overhangs or groves in the pan must not exceed 15 mm.
2. The pan must be a goldpan of traditional design, goldpans that meet the requirements above, but are not of traditional design must be submitted to the Competition Committee for its approval. This committee meets prior to the start of the championships. In an emergency the Chief Justice may make the decision.
3. No other equipment belonging to any competitor is allowed.

B. THE SAND AND GRAVEL

1. The Bucket of Sand/Gravel will be the same mix and weight in each round.
2. Proficient, Veterans and National Team Competitors will get a bucket containing between 15 and 20 kg of sand/gravel.
3. Juniors will get a bucket containing between 10 and 12.5 kg of sand/gravel.
4. The sand/gravel mixture must not contain any gold except that placed there by the organisers.

5. The recommended mixture of the sand/gravel should be 5 parts sand to 2 parts gravel. (Gravel must not exceed 25 mm in size).

C. THE TUBE

1. The tube can be made of either glass or plastic.
2. Tube size minimum is 5cm x 1cm and maximum is 9cm x 1.5cm.
3. The tube must have a push-in cap.

D. THE COMPETITION GOLD

1. The gold flakes used must be equal to or more than 18 carat.
2. The minimum size of the gold flakes is 1.0 mm.
3. The number of gold flakes for each competitor in a single heat must be the same. The number of gold flakes between each heat and each round may differ. The number of gold flakes must be between the following amounts:
 - a) All heats between 5 – 12.
 - b) All finals between 7 – 12.
 - c) National Team event between 10 –20.
4. The number of gold flakes must not be made known until after the heat is completed.
5. The gold flakes must be seeded into a bucket, pre-filled with the correct amount of sand/gravel, under the official supervision of the Board of Judges' Sand Supervisor. The seeding must be out of all competitors' sight.

E. CLEAN WATER

1. Clean water must be available for the competitors to put into their tubes.

F. IDENTIFICATION

1. The organiser must provide numbers for the competitors to wear for each heat. These numbers must be seen from the front and back and correspond to the pool number that the competitor is in.

4. RULES FOR THE COMPETITION

A. DETERMINING THE NUMBER OF ROUNDS

1. For any category with more competitors than the number of panning pools more than one round will be organised.
2. A minimum of 1 in 2 competitors must qualify for the next round.
3. In each round heats should have the same number of competitors, +/- 1. 'No shows' in a heat will count as being present in respect of this rule.
4. All competitors in a heat must compete at the same time and place.

B. THE DRAW

1. The draw for each round must be completely random and all competitors for a round must be part of the draw.
2. All heats in a round must be displayed together once drawn.

C. PRELIMINARIES

1. The Call: A competitor must arrive at the bibbing area in time to prepare to compete. A competitor failing to arrive at the competition bibbing area 2 minutes before the heat is due to start may be disqualified.
2. Identification: Each competitor must wear their identification number.
3. Selection of Sand/Gravel: Each competitor will choose a bucket of sand/gravel from those reserved for that heat.
4. The Tube: Each competitor will be given a tube in which they will place clean water.
5. The competitor moves to their numbered panning pool and prepares for the start. The pan must be clean and empty.

D. THE START

1. During the start if a competitor is having any problems they must raise one arm to alert the pool-side officials.
2. The start is by three commands. 1, "Take Your Place", 2, "Get Ready" and 3, a start signal. Once competitors are at their pools the starter will command, "Take your place" this is to alert the competitors that they are about to start. Then the command will be given to "Get Ready". Competitors at this stage should be ready to start and not touching the pan or bucket. A clear signal to start will then be given and competitors are free to start panning. The competitors may sit or stand.
3. The False Start: If no competitor has poured any sand/gravel into their pans the Chief Justice can stop the contest and order a restart. (Competitor(s) responsible for the false start will be given a warning. If any competitor gets another false start warning at any time during the competition they will get a 2 minute penalty.) If competitors have already started to pour sand/gravel into their pans the competition will not be stopped. (The competitor(s) who committed the false start offence will get a 2 minute penalty.)

E. THE EVENT

1. Using the water in their pools and their pans the competitors will wash the sand/gravel from their buckets to extract the gold flakes as quickly as they can.
2. The competitors may transfer the gold flakes from their pan to the tube at any time.
3. Sand/gravel already washed into the pool, or spilled must not be taken back into the pan. Competitors will face instant disqualification for this offence.
4. When a competitor has finished panning they must:
 - a. Close the tube by placing the cap on securely.
 - b. Give the finishing signal, which is to raise the pan above the head. From this time on they must not remove the cap from the tube.
 - c. Leave the pool immediately without disturbing the other competitors. Should a competitor disturb other competitors they could face disqualification.
 - d. The competitor must then place their tube in their pan and proceed for verification as directed by pool officials.
5. The total panning time allowed in a heat is 15 minutes.

F. CAPPING

1. If a competitor gives the finishing signal and the cap is not on the tube they will get a 2 minute penalty.
2. If a competitor has placed the tube in his pan and then the cap comes off the competitor will get a 2 minute penalty. The competitor must not touch the tube or the cap, but must signal for assistance. Any gold flakes out of the tube will not be counted. The official will replace the cap.
3. Any competitor removing the cap from the tube after giving the finishing signal will be instantly disqualified.

G. THE NATIONAL TEAM

1. Members of each National Team must be from that nation, No 'guest' panners are allowed.
2. A National Team consists of 5 competitors. (3 male/2 female or 3 female/2 male.)

H. THE NATIONAL TEAM COMPETITION

(This is a relay of five individual competitors)

1. Each National Team will occupy 1 panning pool, only one person may be in the pool or panning at any time Team members must not significantly disturb any other National Team. Verbal advice only may be given to the one panning by the other members of the team.

2. Each team member has their own bucket of sand and gravel. They must only pan their own sand and gravel. They are not allowed to pass any sand and gravel or gold (unless in the tube) between team members.
3. Each team member must bottle their own gold. A team member must leave the pool before the next person enters, if a pan is to be passed between team members it must be washed by the panner in the panning pool before it is passed on.
4. No team member is allowed to touch the bucket, pan or sand and gravel of the person who is panning. The others are permitted to prepare to pan.
5. Competitors 1 to 4 do not have to place the cap on the bottle. Competitor 5 is under the capping rules and any penalties will be added to the team time.
6. Competitor 5 (wearing the number) will finish and verify following the normal rules. Only competitor 5 will line up for verification. Once finished panning, other team members should leave the pool area.
7. The total panning time for the National Team competition is 30 minutes.

I. VERIFICATION

1. On leaving the panning pool the competitor must put their tube into their pan and carry it in that position until they reach the gold counting area. Capping rules apply. When competitors are in line they may count the gold in their tube by holding the pan in one hand and lifting the tube with the other hand. The tube must be kept over their pan. Once the gold is counted the tube must be returned to the pan. The pan with the tube in it must be offered to the scrutineer.
2. The scrutineer must be able to see and count the gold flakes in the tube. Therefore, the water in the tube must be clean and the gold must not be obscured by other materials in the tube.
3. The competitor must inform the scrutineer how many gold flakes they are claiming. The scrutineer will check the tube and if they agree, this number is recorded and the competitor signs. This signature means that they agree with the count and once signed it is final.
4. If the scrutineer disagrees with the competitor they will say so and give the competitor the chance to recount the gold in the tube. If after recounting the competitor and the scrutineer now agree this number is recorded and the competitor signs.
5. If the competitor and scrutineer still do not agree or the gold flakes cannot be counted because of dirty water or sand in the tube, the Chief Justice and/or the chairman of the Competition Committee will be called. The tube will then be opened and the gold flakes counted. The competitor may request someone to be present on their behalf. The Chief Justice and/or the Competition Committee Chairman is responsible for telling the scrutineer how many gold flakes are to be recorded. This decision is final.
6. Once an agreement is reached, or a decision by the Chief Justice and/or chairman of the Competition Committee is made, the competitor must sign the sheet. Failure to do so may result in disqualification.
7. A competitor is given back the tube with gold in once the count is signed.

8. If the gold flakes could not be counted because of dirty water or sand in the tube then the competitor will be given a warning and “yellow card”. This means that if the same happens in any round of the same championship the competitor will receive a two minute penalty each time.
9. For each flake of gold lost a penalty time of 3 minutes will be added to the competitors’ finishing time.
10. In a world or European competition if a competitor or team find more gold flakes than were seeded, the heat is declared void by the Chief Justice. The heat will be re-run as soon as possible. In the case of re-runs the organiser will publish that the heat was void and the time of the re-run. No results for this heat will be published. The names of those finding extra gold will be recorded by the Competition Committee. If a name appears 3 times in 3 years the jury will be called and the person/team be disqualified from any event organised under the WGA rules for 3 years. Names recorded will be made known to the WGA Council at the next AGM.
11. Cheating. If a competitor is caught cheating, or is reasonably suspected of cheating, the Chief Justice will be called immediately and will suspend the competitor pending a hearing. This hearing must be held as quickly as possible so that if the competitor is found to be innocent they may continue in the competition. The Chief Justice will summon the Jury, under the chair of the WGA Vice President (or President if the Vice President is absent). If at the hearing the charges are proved the competitor will be disqualified immediately and banned from any competition organised by the WGA or National Competitions organised by a Member Nation for 5 years. Names recorded will be made known to the WGA Council at the next AGM.

5. OFFICIALS AND PROCEDURES

A. RUNNING AUDIT

1. Members of the Competition Committee will be allowed free and full access to all the organisational areas for the purpose of ensuring full compliance with the WGA rules and to record good practice. They will inform the Chief Justice where the WGA rules are being broken and offer help and advice when requested by the organisers or a competitor. The organisers will issue any necessary passes for access to all areas of the competition arena. The Competition Committee Chairman will be advised of any problems.

B. PROTESTS

1. There are two types of formal protest
 - a. Protest against a disqualification.
 - b. Protest against a published result.
2. A competitor may formally protest to the Jury in written English about a disqualification or published result within 30 minutes of the disqualification decision or the result being published. Their letter must state their case and include the 20 Euro protest fee. If the protest is successful the money will be refunded, if not the money goes to the WGA Treasurer.

3. Once the organisers have received a formal protest they will summon the Jury for the hearing.
4. All protest hearings will be in English.
5. There is no right of appeal following a decision by the Jury.
6. The Jury must announce the result as soon as possible to the protesting competitor.
7. This protest procedure does not apply to verification of gold flakes.

C. THE JURY

1. The Jury for a World or European Championship will be appointed by the Organisers and will be made up of the following members who must be familiar with the WGA competition rules:-
 - 2 male panners from the proficient category and from different Nations
 - 2 female panners from the proficient category and from different Nations
 - 2 members of the Competition Committee.
2. The Jury's role is to sit in judgement on all protests. For any hearing the number of Jury members required will be four. One male panner, one female panner and 2 from the competition committee. These members must not be from the protesting nation. This will allow for protests from nations who have supplied Jury members. The Jury spokesperson will be a member of the Competition Committee. In the event the jury cannot reach a decision then the WGA vice president (or president if the vice president is absent) will be called to direct them. All Jury decisions are final for the current competition and must be reported to the Chairman of the Competition Committee.

D. THE BOARD OF JUDGES

1. The following people will be appointed by the Organisers and will be the Board of Judges. Their function is to ensure that the rules and spirit of the competition are followed at all times. They have the power to report any competitor to the Chief Justice for a breach of the rules.
 - Chief Justice. His decision in all matters is final unless changed by the Jury under a protest hearing. He has the power to discipline any competitor for a breach of the rules.
 - Time Keeper. The official responsible for timings during the championships.
 - Pool Supervisor. The official responsible for the smooth running of the panning pools area.
 - Chief Scrutineer. The official responsible for the verification counting of the gold flakes at the end of each heat.
 - Sand Supervisor. The official responsible for the preparation and seeding with gold of the buckets of sand/gravel used in the competition.

- Bibbing Supervisor. The official responsible for the allocation of numbered bibs to the competitors.
 - Tube Supervisor. The official responsible for giving out the empty tubes before the start.
 - Data Supervisor. The official responsible for the output of data and for publishing the heats and results.
2. The names of the Board of Judges, the Jury and reserves must be displayed for all to see before competition starts.
 3. The following members of the Board of Judges are barred from competing; Chief Justice, Chief Scrutineer and Sand Supervisor .
